DETAILED ACTION

Allowable Subject Matter

Claims 2, 3, 5-9 and 11-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 2, 3, 5-9 and 11-12 are considered allowable in view of the amendment to the claims along with the Remarks of the Amendment of September 21, 2005.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mandell (US 6,176,579) has been cited to show a contact lens that has at least one surface having at least two curves of different slopes with a junction therebetween (it is a bifocal lens with a toric transition), where the slopes of the curves at the junction are equal (col. 3, lines 3-9). However, Mandell does not teach or suggest that a pressure, including peak pressure, is reduced. In fact, there is no mention in Mandell, of pressure.
